3PV Experiences Unprecedented Growth
At nearly 20,000 transactions a day, numbers add up fast

Orlando, Fla. (September 9, 2008) -- 3PV[®] – Third Party Verification Inc., a leader in complete verification solutions, today announced that the company has experienced unprecedented growth encompassing various facets of the organization in 2007 and 2008 over recent years.

3PV marks an important milestone this year, completing over 20 million third party verifications, averaging approximately 20,000 completed verifications per day. Revenue growth has been substantial, with an increase of 52% in the first half of 2008 over the first half of 2007 - comprised of 38% growth in the first quarter of 2008 over the first quarter of 2007 and 66% growth in the second quarter of 2008 over the second quarter of 2007 - expecting this trend to continue through the remainder of the year. This extensive growth is an indication of organizational stability and potential for future development.

Throughout 2007 and 2008, 3PV has maintained exemplary levels of customer service, as evidenced in a July 2008 customer satisfaction survey in which 95% of 3PV clients indicated that they would be likely to recommend 3PV services to another company. This superior satisfaction rate is due largely to 3PV's unique, customer-centric approach to customer service, which includes the flexibility to accommodate customers' needs, adoption of new technology, and invariable system uptime and availability. Additionally, the company has maintained a substantial verification success rate, confirming its position as a market leader.
