**3PV[®] Discusses Exciting New Trends and Developments
in Third Party Verification in Free Live Webcast**

Webcast will present new ways to boost business confidence and maximize verification completion rates

Orlando, Fla. (July 21, 2009) -- 3PV[®] – Third Party Verification, Inc., a leader in third party verification services, today announced that it will host a free, live webcast to discuss new developments in TPV. 3PV will present an industry update and the latest trends in third party verification solutions. The webcast will take place at various times over the next few months. To register, visit <http://www.3pv.com/events.php>.

Recognized as the leading third party verification services provider, 3PV offers unparalleled features, superior service levels and uncompromised reliability. The 30-minute webcast will draw upon 3PV's extensive experience at the forefront of innovation, providing verification solutions to businesses across all industries, enabling organizations to boost their business confidence and optimize their rates of completion.

Aimed at business executives, decision-makers and operational staff, the presentation will feature:

- New trends and developments in TPV technology
- What to look for in a TPV provider
- Real-world examples

“In these economic times, businesses are pushing to make operations more efficient and reduce cost,” said 3PV's CEO, David Brinkman. “Companies need to focus on technology solutions that can better integrate and automate their existing business processes, and enhance their competitiveness by offering an exceptional customer service and verification experience.”

To register for an upcoming webcast, please visit <http://www.3pv.com/events.php>.

About 3PV® – Third Party Verification, Inc.

3PV is a cutting-edge information technology company that specializes in creating one-of-a-kind breakthrough solutions for complex business challenges. The company is widely respected as the leader in speech-enabled, live-agent and online third party verification (TPV) for service providers. The company was the first to employ speech-enabled verification, an integrated call-back solution, a full-time regulatory compliance officer and a patent-pending eLOA® (electronic letter of agency). With documented industry-leading verification completion rates higher than 95%, all 3PV verification solutions meet or exceed FCC, FTC and state requirements for carrier, utility and commercial services. 3PV's state-of-the-art carrier-grade facility ensures service uptime, security and reliability.
